

Entry-Level Certification Program

Extended ASE Entry-Level Certification testing window

To assist schools complete their SY2019-2020 testing, **ASE is extending the end of the current testing window from June 30 to September 30, 2020.** This will allow you to administer the tests at your school should your students return later this spring, over the summer, or in the early fall. The 2020-2021 school year for ASE Entry-Level Certification testing will then open in early October 2020 for new purchases and fall testing.

The ability to purchase additional (new) test credits for the 2019-2020 academic year has been disabled. All test credits for the 2019-2020 academic year must be used before **SEPTEMBER 30, 2020.** Unused test credits will not be carried forward to next year and refunds will not be issued.

Some instructors have asked about providing the tests to students at home via a remote proctoring system. We are piloting a remote proctoring option on a pilot program basis. For more information contact customer service at 703-669-6650 or email Entry-Level@ASE.com.

ASE continues to monitor the evolving COVID-19 situation and will contact you if our plans change.
