

During these challenging times, we know you have a lot on your mind, and we don't want you to worry about your expiring ASE certifications. To help ease your mind, **ASE has automatically extended any of your June 30, 2020 expirations to December 31, 2020.** At a time like this, a professional credential is even more important, so please visit your myASE account to print a certification status letter showing the updated expiration date. If your employer requires a certificate, please reach out to our customer service department at [contactus@ase.com](mailto:contactus@ase.com) for assistance.

Like many folks today, our staff is working from home, but we are ready and able to answer any questions or just talk. We want you to know that ASE, and all our industry partners, appreciate your service and commitment to professionalism as our transportation infrastructure needs you more than ever.

Your health and well-being are a top priority for all of us at ASE. So, please stay safe, follow the guidance from the [Centers for Disease Control \(CDC\)](https://www.cdc.gov/) at home and work, and know that you have the full support of ASE as you keep the motoring public going.

Sincerely,

Tim Zilke, President & CEO  
ASE

Bobby Bassett, Chair  
Gates Corporation

Mark Polke, Vice Chair  
Robert Bosch LLC
